

PAPERS IN CONNECTION WITH THE BUBONIC PLAGUE.

Extract from the diary of the Assistant Commissioner, Closepet Division,
for the week ending 24th December 1898.

Vadavatta is a road-side village within 11 miles from Magadi. After people were dispersed and shops closed in the Bangalore City, there was much traffic on this road, as people of whole of Magadi taluk and the surrounding villages began to export grain to Channapatna. Owing to prevalence of plague subsequently at Channapatna, not a single cart now passes by this road. Both the patel and shauhog of this village are, however, very vigilant and do not allow a single person coming from an infected area into their village. The village totis are made to watch the entrances to the village both day and night. Sheds have been put up by the villagers themselves to keep out people arriving from infected areas. The village was found to be free from plague.

Extract from the diaries of the Plague Officer, Mysore, dated 25th and 26th December 1898.

25—12—98.

The total mortality of the city is registered at 20, of which 4 deaths occurred in Lashkar mohalla, 11 deaths (7 from fever) in Mandimohalla, 3 in Devarajmohalla, and one each in Krishnaraj and Nazarbad Mohallas.

The North Ward Officer again reports the result of his enquiry into the large number of deaths in Mandimohalla as being unable to attribute any to plague as the Assistant Surgeon, who accompanied him, was unable to detect any plague symptoms.

26—12—98.

The Ward Officer accompanied by the Assistant Surgeon, Mr. Lakshmansawmi, examined many patients and corpses in Lashkar and Mandimohallas, but no symptoms of plague could be detected.

Extract from D. O. letter, dated 30th December 1898,
from the Deputy Commissioner, Tumkur district.

Plague in Tumkur seems to be on the decline. The recent attacks are not virulent; buboes appear in almost every case, and the majority of cases give every hope of recovery.

The affected villages round Tumkur have all been evacuated: the attacks in the fields must diminish in the course of a fortnight, after which I hope to be able to show a clean bill of health. I see these people in their sheds and give them every assurance.

Notification, No. 5250, dated Bangalore, 28th December 1898.

Under Regulation 19 of the original City Regulations issued under the Epidemic Diseases Regulation, 1897, (Notification No. 9384—Mis. F. 21-96, dated 10th February 1898, as amended by Notification No. 5182—Pg. F. 21-96, dated 14th October 1898) quoted in the margin,*

*19. In any locality to which this rule is applied by the Plague Commissioner, the President may by an order require that the certificate of a Medical Officer shall be obtained showing the cause of every death within two hours after such death.

After the issue of such an order, if a burial or cremation takes place without such a certificate having been obtained, the death may be presumed to have been due to plague, and the persons believed to have been in recent immediate contact with the corpse shall be liable to segregation and detention.

2. The President of the Municipal Commission, Bangalore City, is authorized to issue the necessary orders for enforcing the above Regulation from that date.

Supplementary Statement showing in detail the places in the Mofussil where Plague Cases and Deaths were reported in daily returns during the week ending Friday the 30th December 1898.
